Year 10 Knowledge Organiser 4: Health and Social Care

	Keywords	Other Information
7	<p><u>Identify</u> Provide a single word or short response to pick out the key factor <u>Describe</u> Giving an account of something including a series of features <u>Assess</u> Provide sufficient detail and/or understanding in responses.</p> <p><u>Growth</u> describes increased body size such as height and weight <u>Development</u>-involves gaining new skills and abilities such as riding a bike <u>Classification</u>-involves grouping together similar things into categories</p>	<p><u>Explain</u> Provide sufficient detail and/or understanding in responses. <u>Analyse</u> Examine in detail to discover the meaning or essential features of a theme, topic or situation. <u>Evaluate</u> Examine in detail the meaning or essential features of a theme, topic or situation; <u>PILES</u>- Physical, Intellectual, Language, Emotional, Social development <u>Life Stages</u>-Infancy, early childhood, adolescence, early adulthood, middle adulthood, later adulthood.</p>
8	<p><u>Factors and the impact on development</u> <u>Diet and Lifestyle</u> A healthy diet can lead to, Healthy hair, skin, nails and teeth, Positive Self-image, Energy and Stamina, good Health <u>Exercise</u>-regular exercise is important for supporting physical development <u>Other lifestyle choices</u> include alcohol illegal drugs and smoking</p>	<p><u>Financial resources-how much money we have.</u> <u>Income</u> is the money that people receive from their work, savings, pension, benefits or investments What adequate income allows us to do-afford leisure facilities, buy luxuries, heat our homes, live in house, afford nice clothes, pay rent</p>
9	<p><u>Life events (Expected)</u>: Is a belief that something is likely to happen. Examples include Marriage, Starting school, Moving house, and Parenthood. <u>Life events (Unexpected)</u>: Is not thought of as likely to happen. Comes unexpectedly. Examples include Illness, Accidents, Redundancy and bereavement.</p>	<p><u>Bereavement</u> - Is losing a partner, relative or close friend to death. Some deaths are expected due to a long-term illness or old age however sometimes this can be unexpected such as through an accident. Losing a spouse or long-time partner has the largest impact on emotional development compared to all life events. This is due to the emotions individuals go through.</p>
10	<p><u>Divorce - A legal ending of a marriage.</u> -Strong family ties provide the stability and security needed for positive growth and development. A breakdown in a relationship can lead to insecurity for the couple and their children</p>	<p><u>Social isolation</u> can happen because: they live alone; are unemployed/retired; are discriminated against; have an illness or disability. This can make people feel insecure.</p>
11	<p><u>Environmental conditions Air pollution</u>-high blood pressure, sleeplessness, hearing loss, increase in stress levels <u>Noise pollution</u>-cause respiratory conditions, irritate the eyes, nose and throat, include dust that comes from quarries, mines, factories</p>	<p><u>Social interactions</u> -Supportive and unsupportive relationships-provide an individual with physical support and assistance, intellectual stimulations, emotional support and happiness. -Social integration/isolation-our relationships help us feel whether we are expected into a community or a workplace.</p>

STEP 2: CREATE CUES

What: Reduce your notes to just the essentials.

What: Immediately after class, discussion, or reading session.

How:

- Jot down key ideas, important words and phrases
- Create questions that might appear on an exam
- Reducing your notes to the most important ideas and concepts improves recall. Creating questions that may appear on an exam gets you thinking about how the information might be applied and improves your performance on the exam.

Why: Spend at least ten minutes every week reviewing all of your previous notes. Reflect on the material and ask yourself questions based on what you've recorded in the Cue area. Cover the note-taking area with a piece of paper. Can you answer them?

STEP 1: RECORD YOUR NOTES

What: Record all keywords, ideas, important dates, people, places, diagrams and formulas from the lesson. Create a new page for each topic discussed.

When: During class lecture, discussion, or reading session.

How:

- Use bullet points, abbreviated phrases, and pictures
- Avoid full sentences and paragraphs
- Leave space between points to add more information later

Why: Important ideas must be recorded in a way that is meaningful to you.

STEP 3: SUMMARISE & REVIEW

What: Summarise the main ideas from the lesson.

What: At the end of the class lecture, discussion, or reading session.

How: In complete sentences, write down the conclusions that can be made from the information in your notes.

Why: Summarising the information after it's learned improves long-term retention.
