

SAFEGUARDING FOCUS

VAPING

Safeguarding issues for children in our community encompass a wide range of concerns, with several pressing issues facing all schools and our community.

The rise of vaping and the use of THC (tetrahydrocannabinol) products among young people is a significant concern. The easy accessibility and marketing tactics targeting youth have raised alarm bells, as the long-term health effects of these substances remain uncertain.

NEGLECT

Neglect is another troubling issue, as some children face inadequate care, insufficient nutrition, and emotional neglect, which can have profound and lasting consequences on their well-being.

DOMESTIC ABUSE

Furthermore, violence against women and girls remains a deeply rooted problem, affecting not only the victims but also children who witness or are indirectly impacted by such acts. It is imperative for society to work collectively to address these multifaceted issues, ensuring the safety and well-being of the most vulnerable members of our communities.

APP SPOTLIGHT

TELEGRAM: A SECURE MESSAGING APP

Telegram is a messaging app that offers end-to-end encryption, making it a secure platform for sending messages, making voice and video calls, and sharing media. Here's what you need to know:

- **Privacy Settings:** Telegram allows users to customize their privacy settings. Encourage your child to set their profile to "private" to control who can contact them and view their profile picture.
- **Content Sharing:** While Telegram is relatively secure, remind your child to avoid sharing personal or sensitive information with strangers. Encourage them to be cautious when sharing location data.
- **Parental Controls:** Telegram does not have built-in parental control features. However, you can monitor your child's usage and communicate openly about responsible online behaviour.

Did you know...

Bananas can help improve your mood!
A banana has approximately 30% of your daily recommended intake of vitamin B6. Vitamin B6 helps the brain produce serotonin, which is considered a mood stabilizer. Serotonin impacts your motor skills and emotions.

PSHE FOCUS

HEALTH AND WELLBEING

In PSHE this half term, the focus is all around health and wellbeing. Students will be exploring elements around physical health and also mental health.

A large number of children and young people will experience behavioural or emotional problems at some stage. For some, these will resolve with time, while others will need professional support. It might be difficult to know if there is something upsetting your child but there are ways to spot when something is wrong. The NHS advises to look out for:

- Significant changes in behaviour
- Ongoing difficulty sleeping
- Withdrawing from social situations
- not wanting to do things they usually like

For advice on how to help support and look after young people's mental health from the NHS, [click here](#). The [NSPCC](#) also shares information and tips on how to start the conversation.

RELATIONSHIPS AND SEX EDUCATION (RSE)

Relationships, Sex and Health Education (RSHE) is the curriculum subject that gives young people the knowledge, understanding, attitudes and practical skills to live safe, healthy, productive lives and meet their full potential. The Relationships and Sex Education (RSE) curriculum is taught throughout the school in every year group through PSHE lessons and curriculum collapse sessions. The curriculum is monitored and reviewed regularly.

Please view the letter on the first page of this document for information on what your child will be covering within this unit.

PSHE LESSONS THIS HALF TERM:

Year 7	Health and Wellbeing: Puberty and Body Development Introduction to puberty Puberty (boys) Puberty (girls) Growing up Assertiveness, consent and hormones Self-esteem
